

United States Postal Service

Date: June 11, 2026

To the Residents of Adams Township and Mars Borough:

The United States Postal Service is providing this notice to reassure residents that a merger of Adams Township and Mars Borough does not affect anyone's mailing address. This includes a renaming to Mars Township.

All mailing addresses will remain the same. Residents should continue using their current street address, municipality, city, state, and ZIP Code exactly as they are currently used for mail and package delivery.

There is no need to update mailing information solely because of this municipal merger and renaming. Mail delivery service will continue without interruption, and residents should expect no change in the way mail is addressed, processed, or delivered as a result of this municipal action.

Customers may continue to use their existing address information for personal correspondence, business mail, billing records, packages, and official documents.

Thank you for your attention to this matter.

Sincerely,

Jacob Herr
Supervisor - Customer Service
United States Postal Service
